Fall 2025

 PROGRAM REGISTRATION BEGINS
WEDNESDAY, AUGUST 27TH

Find us on 

Dear Lewisboro Resident:

I hope that 2025 has been a great year for everyone and that everyone has been enjoying this wonderful Summer. As we get ready for Fall, we will of course be preparing for our Parks & Recreation Fall programming. I will take this opportunity to thank you for your continued support of our fabulous Parks & Recreation Department.

Facilities improvements has been one of my major goals. The latest has been the renovated Onatru bathrooms and soon we will break ground on our new Pool Bath House. Soon to be updated will be the Fox Valley bathrooms. For the pickleball players, we still have new courts at Town Park on our list. We are waiting for confirmation on grants which will help us cover the cost before taking the next step.

Our Fireworks Spectacular is a favorite of many residents and once again this year it was a spectacular event at Onatru Farm Park with an amazing crowd. Our summer camp was another successful one. It is great to see so many happy children enjoying our camp programming.

Some other highlights of events:

- Drive in Movie Night at Onatru Farm Park on Friday, September 26th
- New Event: Bark in the Park for dogs on Saturday, November 1st
- New Programs: Paint Night for kids and Mother/Son Dance
- Oktoberfest on Saturday, October 4th
- Fall Fun Fest (with a Howl-o-ween event for dogs!) on Saturday, October 18th at the Town Park
- Christmas Tree Lighting at Town Park on Monday, December 1st from 6-7 pm

COOPERATING AGENCIES

A FALL MESSAGE FROM THE LEWISBORO STORMWATER COMMITTEE

Accelerated growth of aquatic plants and toxic algae causes problems in lakes, drinking water reservoirs, and rivers. Pollution adds nutrients, especially phosphorus, which enables this growth. One pound of phosphorus can result in 500 pounds of plant growth. A little goes a long way! Help reduce the amount of phosphorus leaving your property by:

Pumping your septic system at least every 5 years as required by law. The septic system collects the phosphorus in the human waste and discharges it into the septic fields. Phosphorus will then bind with the soil in the fields and not runoff in the stormwater.

Leaving the leaves where they fall in wooded areas. This will minimize runoff, protect bare earth from erosion, and the leaves will decompose naturally. These leaves provide nutrients for trees and other habitat for wild animals.

Using a mulching mower on your lawn and leaves.

Minimizing impervious surfaces that speed runoff and reduce the absorption of water and nutrients.

Picking up pet waste and disposing of it in the trash so rain doesn't carry that pollution into streams and waterbodies.

Not using lawn fertilizer with phosphorus which is now banned in New York State.

Get pumped! Septic, that is.

Pump out your septic system! It's a good idea to maintain your septic system. And now it is the law.

To protect the quality of the area's drinking water, Westchester County and Lewisboro instituted a septic system inspection requirement in 2011. Septic systems are a source of phosphorus which can devastate Lewisboro's lakes and watercourses, destroying much of the scenery that makes our Town such a wonderful place in which to live. This law requires that each septic system be pumped at least once during every 5 year period. Failure to do so may result in significant fines.

This means that if you haven't had your septic system pumped since Fall of 2017, it's time to do so NOW. Many septic systems need pumping more often than every 5 years, depending on usage or condition. Have your septic system pumped out this season by an authorized Westchester County septic hauler.

Keep your copy of the septic system inspection report as proof if records get lost. Bureaucracies are not perfect and the report is the only proof that you obeyed the law!
