Fall & Winter 2026-2027

PROGRAM REGISTRATION BEGINS WEDNESDAY, SEPTEMBER 2ND

Find us on

Dear Lewisboro Residents:

I hope that 2026 has been a great year for everyone. We are now getting ready for the Parks & Recreation Fall programs. As the saying goes; Time flies when you're having fun. 😊

Regarding our facilities improvements, here are some updates: We have a new Pool Bath House, and I highly recommend checking it out, it is a great enhancement to our amazing pool facility. In addition to the upgraded Onatru bathrooms we are now working on the Fox Valley Park bathrooms which will have a new water system, and updated fixtures and interior, paid for by a NYS grant. For the pickleball players, we still have new courts on our to-do list at Town Park. We were not successful in securing the additional needed grant, but will figure out next steps. If you haven't noticed, we now have photovoltaic solar panels on the main barn at Onatru, we expect that all of Onatru electricity requirements will be offset by these solar panels. This was made possible by a NYS grant.

We had another wonderful Fireworks show at Onatru Farm Park, this is a favorite of many residents and once again this year it was spectacular especially as we were celebrating the 250th anniversary of the United States and the Declaration of Independence. We had for the first time a Town History tent at the fireworks and our Town Historian Maureen Koehl set up a wonderful display of Lewisboro History. We had another successful Summer Camp enjoyed by many children in our community.

A MESSAGE FROM THE LEWISBORO STORMWATER COMMITTEE

As the seasons change, we might not spend as much time thinking about our local waterbodies. We've paused fishing in the streams, boating on the lakes and reservoirs, or watching dragonflies dart above wetlands. But our actions during this period can have dramatic impacts on the health of the waters around us and upon our drinking water supply.

During the spring and summer, trees, shrubs, and grasses all absorb phosphorus from the soils as they grow, but with the onset of cooler weather, they shed leaves and reduce growth. The discarded leaves and grasses all contain phosphorus which can be released into our waterbodies. As the ground becomes less absorbent, any rainfall will carry more polluted runoff. Phosphorus that runs off this fall and winter can cause plant and algae growth in the spring. Additional phosphorus accelerates the growth of aquatic plants and toxic algae: a pound of phosphorus enables the growth of 500 pounds of aquatic plants and algae.

As you deal with leaves this fall, do not blow them into lakes, streams, or ponds. If you use a landscaping service, make sure they don't use waterbodies as a convenient but polluting disposal system. Gather the leaves into a compost pile away from the water, or use a mulching mower to produce natural fertilizer for your lawn.

In wooded areas or garden beds, let the leaves stay where they fall. That will eliminate erosion from bare soil and will minimize runoff. Leaves also provide important winter habitat for wild animals including some pollinators.

You can take actions to improve the environment and reduce stormwater pollution. Please commit to do as many as you can.

- I will check to see when my septic system was last pumped and if it hasn't been done in the last 2 or 3 years (5 years is the legal maximum), I will have it pumped.

- I will use water efficiently so I won't overload my septic system, which can shorten its life.
- I will not use lawn fertilizer containing phosphorus since it is against the law. I won't spread fertilizer on frozen ground.
- I will use a mulching mower that mulches grass cuttings and leaves while mowing or compost leaves and other yard waste.
- I will cover bare soil with grass seed and mulch to prevent erosion of earth and its associated phosphorus.
- I will pick up after my pets and dispose of their waste in the trash.
- If I live near a lake, stream or wetland, I will plant a native buffer or rain garden to slow the flow of rainwater or stormwater. This will allow more water to soak into the ground rather than flow over it carrying pollutants directly into the body of water.
- I will plant native plants which need less water and fertilizer to thrive.
- I will check my car for oil and antifreeze leaks and have any leaks fixed.
- I will minimize my use of salt to that which is needed for safety.

Get pumped!
Septic, that is.

MAINTAIN YOUR SEPTIC SYSTEM TO PROTECT THE ENVIRONMENT

A properly functioning septic system can protect the health of individuals and the environment. If you maintain your septic system, you can extend its life and prevent pollution of drinking water and recreational resources.

Pump out your septic system regularly! It's the law to pump at least every 5 years!

To protect drinking water in our area, Town law requires that septic systems be pumped at least once every 5 years. Experts recommend pumping out older systems and those in fragile environments every 2 to 3 years.

For more information on day trips or the senior adult program, please call 914-232-6162 or email Jen at seniors@lewisborony.gov

The Lewisboro Senior Adult Program has much to offer for those aged 50 and older! Under the leadership of Jen Brown, the group will enjoy many fun and interesting events throughout the year!

We invite you to read on and encourage you to participate in our program offerings.

OUTREACH PROGRAM

Our responsibility is to reach out to the growing number of homebound senior adults in Lewisboro. Through this program, access to needed information and referral services are available. If you or someone you know needs services such as home delivered meals, heating assistance, access to Westchester County information, Medicare/Medicaid information, to name a few, please contact Jen Brown.

Transportation to and from medical appointments can be arranged Monday – Fridays, except for Wednesdays. Hours for this transportation must be within office hours and are subject to availability. To make arrangements for transportation, please call Jen.

Medical equipment is available for loan including wheelchairs, walkers, canes, shower chairs, etc. Please call the office if you need any equipment.

The **File of Life** is available through the Senior Adult Program and the Outreach Program. It is an informational tool to provide assistance during a medical crisis. Everyone should have one. The large info file attaches to the refrigerator and the small info file belongs in your wallet at all times. There is a sticker for your door to alert emergency services to the File of Life. The small File of Life is a must on all Town sponsored bus trips.

The **“Are You Okay?”** telephone reassurance system is available to all our seniors. Daily telephone calls to each participant are made to ensure an individual is safe and well. Confidentiality is always guaranteed.

BUS TRIPS

Led by our very dedicated bus drivers, the Town of Lewisboro offers bus trips twice a week with a door-to-door pick-up service: Tuesdays will be for retail/grocery shopping and Wednesdays the senior adult meeting. Please call 914-232-6162 at least one day in advance to make a reservation on the bus or to get a schedule of shopping days. There is a suggested two-dollar donation per day.
