PARKS AND RECREATION NEWS/HAPPENINGS

We would like to wish Pam Veith the best in her retirement. We would like to thank her for her many years of service to the Town of Lewisboro and the seniors.

A MESSAGE FROM THE LEWISBORO STORMWATER COMMITTEE

One important goal of Stormwater Management is to minimize the amount of phosphorus entering streams and lakes. A little phosphorus goes a long way, For example, one pound of phosphorus supports 500 pounds of plant growth! It is best for water containing phosphorus to soak into the ground rather than to run off. The phosphorus in the water will bind with the soil and thus be removed from the water. Run-off can be reduced by slowing the flow of water so that it can soak into the ground.

Here are some lawn care tips to reduce stormwater pollution.

If you fertilize, use phosphorus-free fertilizer **as required by law** (the middle number on the bag is zero). Spread with care. Excess fertilizer flows into streams, lakes, and reservoirs, where it can degrade water, lead to algae and plant growth, and contribute to fish kills. Don't fertilize when rain is expected.

Aerate your lawn to improve water absorption. Lawns can become less pervious due to compaction or a buildup of thatch. Use a core aerator to punch holes in the lawn to allow water and nutrients to penetrate the lawn to aid its growth and reduce runoff.

Use a mulching mower to shred the fallen leaves into small enough pieces to sift down through the grass and decompose. You can also use a bag attachment on the mower to catch all the chopped up leaves and grass and compost it if you want. To learn more about the mulching mower, tune in to LCTV, Channel 20 in the Spring, or the Town website under LCTV Videos, and watch a short Public Service Announcement that the Committee created. You can see a mulching mower in action.

Help your lawn fight weeds by keeping the grass 3" tall so weeds are shaded out. Over seeding in the spring will help grass compete with weeds.

SEPTIC SYSTEMS

Pump out your septic system! It's a good idea to maintain your septic system. And now it is the law.

To protect the quality of the area's drinking water, Westchester County and Lewisboro instituted a septic system inspection requirement in 2011. Septic systems are a source of phosphorus which accelerates plant growth and can kill Lewisboro's lakes and watercourses, destroying much of the scenery that makes our Town such a wonderful place in which to live. This law requires that each septic system be pumped at least once during every 5 year period. Failure to do so may result in significant fines.

This means that if you haven't had your septic system pumped since Spring of 2020 it's time to do so NOW. Many septic systems require pumping more often than every 5 years, depending on usage or condition. Have your septic system pumped out this season by an authorized Westchester County septic hauler.

Keep your copy of the septic system inspection report as proof if records get lost. Bureaucracies are not perfect and the report is the only proof that you obeyed the law!

CAN YOU PAINT A CIRCLE - Lauren Teton, Instructor

Then come and paint Kandinsky's Circles with us! We will use "Color Study: Squares with Concentric Circles, 1913" as our reference painting. Local artist Lauren Teton will guide us as we paint and riff on this light-hearted yet brilliant and important painting using watercolor, and other mediums as Kandinsky did.

You can copy Kandinsky or paint freely and make it your own. There is no "right or wrong" way to do it! The circle," claimed Kandinsky, "is the synthesis of the greatest oppositions. It combines the concentric and the eccentric in a single form and in equilibrium. Of the three primary forms, it points most clearly to the fourth dimension."

All paint, materials, fun and instruction are included. Wear your painting clothes.

Your camper may be placed with campers older/younger, or of a different gender, but will have their **one** requested friend guaranteed. Please only write one request on your registration form. If you write multiples, only the **first** will be honored.
3. Friend requests may not be changed after registration unless there are serious circumstances that warrant a change. As you can imagine, creating exact groups of 12 campers while juggling friend requests is a time-consuming process. One change after groups have already been made can easily create a domino effect.
4. Parent Orientation will be in June TBD.
